BUILDING BRIGHTER FUTURES WITH SOLAR ENERGY

Your trusted partner for **Rooftop & Ground-Mounted** Solar Solutions.

WHO WE ARE?

VSL RE Power is a solar EPC company delivering customised rooftop and ground-mounted solar solutions across commercial, industrial and utility applications. The Company provides end-to-end project execution covering feasibility assessment, engineering and design, procurement, construction, testing, commissioning and project support. With experience across diverse project environments, VSL RE Power integrates technical engineering, project management and execution capabilities to develop solar assets that are designed for reliable generation, efficient operation and long-term performance.

EPC LIFECYCLE

WHY CHOOSE US

The company has pioneered innovative approaches for the deployment of solar energy solutions across diverse applications.

- 300+** Rooftop and Ground-mounted projects delivered
- Presence across **23** States & **3** Union Territories across India
- 200 MWp+** Rooftop project capacity
- Global** footprint
1.2 MWp Project in Nepal
